## Quick guide — search, find, order

### Searching for books

#### Tips:

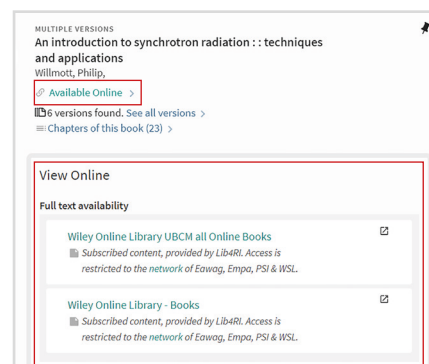

- Combine author name(s) with few title keyword(s).
- The space between words is equivalent to a logical «AND».
- Use quotes, e.g. as in "graphene nanoribbons" to search for terms in a fixed sequence only.
- Use truncations, particularly for ambiguous names or search terms, (e.g. analy\*er and «colo\*r»), or for ones based on a root word (e.g. «hydrolog\*»), to ensure a larger coverage of the search space.

The [Lib4RI-Searchbox](#) on our website offers a convenient entry point to quickly search for books in Lib4RI's swisscovery catalogue and in the full swisscovery catalogue with the complete collections of all [SLSP libraries](#). Additionally, links to other book catalogues are provided.

### Finding e-books

In [swisscovery](#), «Available Online» indicates that the title is part of our e-book portfolio. In the section «View Online» our link resolver will pass you to the «full text» (usually pdf).

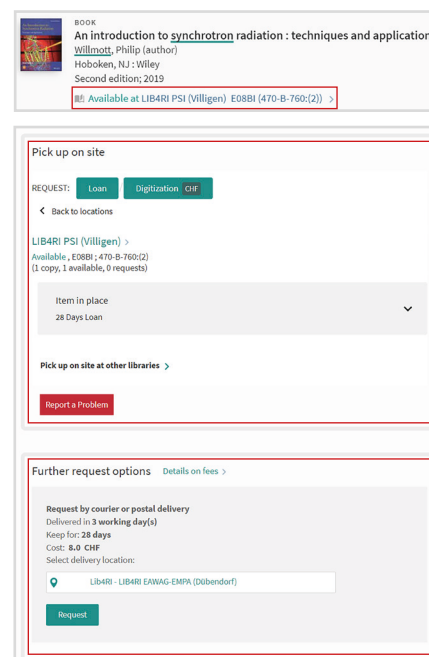

### Finding & borrowing print books

#### Tips:

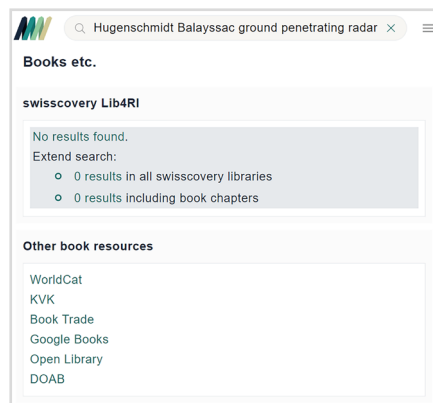

- Expand the search profile of the swisscovery catalogue from «Lib4RI» to «swisscovery», if needed.
- Should «Available at...» not be displayed, click on «Check for available services».
- Use our [document delivery service](#) for digitisation requests.
- Please contact us via «Report a Problem» should you have any issues.

The e-book isn't available or you prefer a printed copy? You can find a print copy in the Lib4RI library holding by clicking on «Available at...». To display your loan and request options, you need to sign in with swisscovery. Then, select «Loan» in the «Pick up on site» section to reserve a book for pick up at the owning library. Alternatively, select «Request» under «Further request options» to order a book for loan. Choose your «Pickup institution» and «Pickup location» according to the table on page 2. Fees are generally covered by Lib4RI.

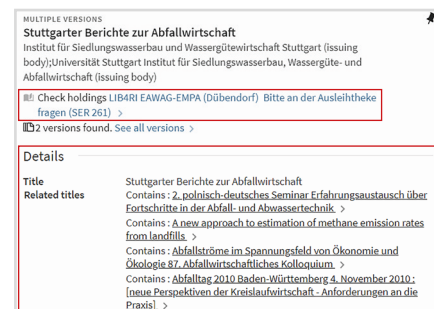

## Book chapters & sections

You are looking for a specific book chapter or section? A direct search via the chapter's / section's author and title is often unsuccessful within [swisscovery](#). In this case, when using the [Lib4RI-Searchbox](#), first select another catalogue to search in (e.g. WorldCat, Google Books) and determine the title and publisher of the whole book. Now use this information to search the [swisscovery catalogue](#) again.

## Book & paper series

You are searching for a book or paper series? Swisscovery often shows the message «Bitte an der Ausleihtheke fragen» or «Maybe available», but there is no information regarding the available volumes. You can find this information further below under «Details» and «Related Titles».

## Interlibrary loan & document delivery

You can't find a book or another medium in the Lib4RI swisscovery catalogue? We are happy to borrow the title from another library in Switzerland or abroad. For affiliates of the 4 research institutes this service is free of charge. Orders can be placed online (> [Search & Read](#) > [Document delivery](#)) or by e-mail ([docdel@lib4ri.ch](mailto:docdel@lib4ri.ch)).

## Recommendations & acquisition

Something is missing in our collection? Recommendations are very much welcome! We are also happy to assist with departmental acquisitions, particularly if a direct, cost-effective order via an online retailer is not feasible for you. Please use the online form (> [About](#) > [Contact](#)) or send us an e-mail ([media@lib4ri.ch](mailto:media@lib4ri.ch))
