Explanation of the document version:

Published Version	The final version of your publication including the publisher's formatting.
Accepted Version	The version of your publication after peer-review and acceptance, but without the publisher's formatting. Very often the publisher allows to publish the accepted version after an embargo time as open access in an institutional repository. Send us your accepted version and we will check this for you.
Supplemental Material	Offers additional information belonging to your publication.

In our [Open Access Page](#) you find for more information regarding the document versions as well.

You will receive a confirmation e-mail that the Publication Services Team has received your submission. As soon as your publication is in DORA, you will receive an e-mail with the link to your publication.
